Town Officers

Moderator

Michael Scott - 1998

Assistant Moderator - Walter St. Clair

Representatives to the General Court

Jon Beaulieu - 1998

Selectmen

Eric C. Nyberg - 1997

Andrew L. Hadik - 1998

Colin M. Costine - 1999

Administrative Assistant

Margaret M. Neveu

Town Clerk/Tax Collector

Barbara L. Gagnon - 1999

Deputy Town Clerk/Tax Collector

Carrie Boucher

Treasurer

Pat Sevener - 1999

Deputy Treasurer

Deborah Costine

Cynthia Tunberg

Fire Chief

Stephen Tunberg

Raymond I. Dolloff, Jr. (Retired 1997)

Road Agent

Carl Morin - 1997

Chief of Police

Alfred Wagner

Supervisor of the Checklist

Janice Jeans - 1999

Diane Dupont - 1998

Virginia Beaulieu - 2000

Trustees of Trust Funds

1998

Joseph O'Brien - 1997

1999

Library Trustees

Melissa Rossetti - Chmn.- 1999

Ed Hewson - 1997

Dorothy Wells - 1999

Rhonda McNeil - 1998

Mary Ann Marchi - 1998

Great Hill Cemetery Trustees

Wayne Towle - 1997

George Noyes - 2000

Steven Childs - 1999

Ernest Edwards - 1998

Walter St. Clair - 1996

Village Cemetery Trustees

David Hoffman - 1999

Ann C. Parnell - 1998

Wayne Towle - 1997

Wilcomb-Townsend Home Fund Trustees

Isabelle Rand - 1997

Catherine Fogg - 2000

Tina Butterfield - 1999

Barbara Dolloff - 2001

Cynthia Tunberg - 1998

Appointments**Budget Advisory Committee**

Dianna Charron, Chairman

Bruce Baker

Paul Kretschmer

Christopher Dyjak

Donald Parnell

Building Inspector/Zoning Officer

David Jore

Environmental Compliance Officer

Brad Wamsley

Cable Committee

Ron Bath - Coordinator

Candy Menard - Asst. Coord.

Lennie Stein

Ellen Boda - Secretary

Civil Defense/Emergency Management

Scott St. Clair, Director

John Cadieux, Deputy Director

Scott Rice, Communications Officer

William Boynton, Deputy Director

Conservation Commission

Larry Benjamin	Brad Wamsley, Chairman

Independent Auditor's Report on Financial Presentation

To the Members of the Board of Selectmen
Town of Chester
Chester, New Hampshire

We have audited the accompanying general purpose financial statements of the Town of Chester as of and for the year ended June 30, 1996. These general-purpose financial statements are the responsibility of the Town's management. Our responsibility is to express an opinion on these general-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general-purpose financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The general-purpose financial statements referred to above do not include the general fixed assets account group which should be included in order to conform with generally accepted accounting principles. As is the case with most municipal entities in the State of New Hampshire, the Town of Chester has not maintained historical cost records of its fixed assets. The amount that should be recorded in the general fixed assets account group is not known.

In our opinion, except for the effect on the financial statements of the omission described in the preceding paragraph, the general-purpose financial statements referred to above present fairly, in all material respects, the financial position of the Town of Chester, as of June 30, 1996, and the results of its operations and the cash flows of its nonexpandable trust funds for the year then ended in conformity with generally accepted accounting principles.

Our audit was made for the purpose of forming an opinion on the general-purpose financial statements taken as a whole. The combining and individual fund financial statements listed in the table of contents are presented for purposes of additional analysis and are not a required part of the general-purpose financial statements of the Town of Chester. Such information has been subjected to the auditing procedures applied in the audit of the general-purpose financial statements and, in our opinion, is fairly presented in all material respects in relation to the general-purpose financial statements taken as a whole.

Financial Statements and Management Letter are available for inspection at the Selectmen's Office during business hours.

Professional Association

Chester Budget Advisory Report

The Chester Budget Advisory Committee met with the Board of Selectmen to review the budget for the fiscal year July 1, 1997 - June 30, 1998. If the budget is passed in it's entirety, we are looking at an increase of \$2.19 in our tax rate. The main increases are listed below:

Fire Department Space Needs - There are two warrant articles #9 and #10 that address the overcrowding problems facing the Fire Department. We would like you to seriously consider Article #10 to purchase 35 Raymond Road for \$187,000 with \$63,000 included to improve it. This property would give the Fire Department Route 102 access, 4 bays for their trucks, and 11 rooms upstairs for training, office space, etc. The Police Department could then move into the old Fire House, the Tax Collector/Town Clerk could move downstairs in the Town Hall and for \$250,000 or a 42 cent increase in our tax rate we would solve many of the Town's immediate space needs problems. We feel that this is a viable alternative to building a \$600,000 Fire Station.

Article #14 Town Charges represents an increase of 40 Cents in the Tax Rate

Article #15 General Gov. represents an increase of 33 cents in the Tax Rate

Article #18 Public Safety represents an increase of 24 cents in the Tax Rate

Article #23 Salt Shed represents an increase of 24 cents in the Tax Rate

Article #28 Candia Road Improvements represents an increase of 30 cents in the Tax Rate

Article #34 Waste Management represents an increase of 63 cents in the Tax Rate

Respectfully Submitted,

Dianna Charron, Chairman

Christopher Dyjak

Don Parnell

Dutch Kretschmer

Bruce Baker

Note: Bruce Baker abstained from our recommendation of the purchase of the Raymond Road property.

Town Warrant
State of New Hampshire

To the Inhabitants of the Town of Chester, N. H. in the County of Rockingham in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Stevens Memorial Hall in said Chester on Tuesday, the thirteenth of May next, at 10:00 in the forenoon to act on Article #1 - #8. The polls will close at 7:00 p.m.. After the ballots are counted, the meeting is adjourned until Wednesday, May 14, 1997 at 7:00 p.m. in the Multi-Purpose Room of the Chester Elementary School. Articles # 9 through Article # 42 will be taken up at that time.

Article #1. To choose all necessary Town Officials for the ensuing year.

Article #2. Are you in favor of the adoption of Amendment #1 as proposed by the Planning Board to amend the Building Code to adopt the updated version of CABO Single-Family and Two-Family Residential Code, 1995?

Article # 3. Are you in favor of the adoption of Amendment #2 as proposed by the Planning Board to amend the zoning ordinance to allow as follows: New definition for Subsection 2.1 - Abutter and Subsection 2.33 - Certified Soil Scientist?

Article #4. Are you in favor of the adoption of Amendment #3 as proposed by the Planning Board to amend the zoning ordinance as follows: Prohibit the use of runways and heliports in the commercial and residential zone.

Article #5. Are you in favor of the adoption of Amendment #4 as proposed by the Planning Board to amend the zoning ordinance as follows: Increase the contiguous non-wetland area from three-quarters ($\frac{3}{4}$) of an acre to one (1) acre.

Article #6. Are you in favor of the adoption of Amendment #5 as

proposed by the Planning Board to amend the zoning ordinance as follows: Subsection 5.3.3.8 - Golf Course - To allow golf courses in the Residential Zone by Special Exception provided they meet the criteria set forth in this subsection.

Article #7. Are you in favor of the adoption of Amendment #6 as proposed by the Planning Board to amend the zoning ordinance as follows: Subsection 4.9 - Home Occupation as follows: 4.9.5 - On-Street Parking - To require on-site parking and 4.9.6 - Procedure - Require a permit issued by the Planning Board.

Article #8. Are you in favor of the adoption of Amendment #7 as proposed by the Planning Board to amend the zoning ordinance as follows: To establish a Telecommunication Facility District to limit such facilities which must be allowed under Federal law, regulations pertaining to such a district and show the districts on the town zoning map.

Article #9. To see if the Town will vote to raise and appropriate the sum of Six Hundred Thousand (\$600,000) for the purpose of preparing plans and specifications, and the construction and equipping of a Fire Station on the Mossman/Grimes Property (Map 5 Lot 19) for the use of the Town of Chester's Fire Department; \$600,000 of such sum to be raised through the issuance of bonds or notes under and in compliance with the Municipal Finance Act, RSA 33:1 et seq., as amended; to further authorize the Selectmen to issue, negotiate, sell and deliver said bonds and notes and to determine the rate of interest thereon and the maturity and other terms thereof; and to authorize the Selectmen to take any other necessary action or to pass any other vote relative thereto. (Selectmen recommend 3 to 0.) (2/3 Ballot Vote Required)

Article #10. To see if the Town will vote to raise and appropriate, up to but not to exceed, the sum of Two Hundred Fifty Thousand Dollars (250,000.00) for the purpose of acquiring and improving land and buildings at 35 Raymond Road (Map 5 Lot 17) for the use of the Fire Department and other Town Departments as deemed necessary; Two Hundred Fifty Thousand Dollars (\$250,000.00) of such sum to be raised through the issuance of bonds or notes under and in compliance with the Municipal Finance Act, RSA 33:1 et seq., as amended, to authorize

the Selectmen to issue, negotiate, sell and deliver said bonds and notes and to determine the rate of interest thereon and the maturity and other terms thereof; and to authorize the Selectmen to take any other action or to pass any other vote relative thereto. (By Petition) (Selectmen do not recommend 0 to 3.) (2/3 Ballot Vote Required)

Article #11. To hear the reports of Agents, Auditors, and Committees of Officers heretofore chosen and pass any vote relating thereto.

Article #12. Shall we modify the elderly exemptions from property tax in the Town of Chester based on assessed value, for qualified taxpayers, to be as follows: for a person 65 years of age up to 75 years, \$15,000; for a person 75 years of age up to 80 years, \$20,000; for a person 80 years of age or older, \$25,000? To qualify, the person must have been a New Hampshire resident for at least five years, own the real estate individually or jointly, or if the real estate is owned by such person's spouse, they must have been married for at least five years. In addition, the tax payer must have a net income of not more than \$18,400 or, if married a combined net income of less than \$26,400; and own net assets not in excess of \$75,000 excluding the value of the person's residence. (Selectmen and Budget Advisory Committee recommend.) (Majority Ballot Vote)

Article #13. To see if the Town will vote to deposit 100%, not to exceed \$20,000.00 in any one fiscal year, of the revenues collected from the " Land Use Change Tax " pursuant to RSA 79-A into a conservation fund in accordance with RSA 36-A:5 III as authorized by RSA 79-A:25 II for the preservation and protection of open space (Undeveloped Land) through acquisition of conservation easements or title to land and for associated costs; and to establish a Strategic Development Committee to identify and make strategic recommendations on parcels of land that should be placed under conservation easement or acquired by the Town. The committee will consist of one Selectmen, one Planning Board member, one member of the public, and two members of the Conservation Commission. The Town Moderator will appoint the member of the public for a three-year term. (Selectmen and Conservation Commission recommend.)

Article #14. To see if the Town will vote to raise and appropriate the

sum of \$395,064 as may be necessary to defray Town Charges (TC) for the ensuing year. (See TC Budget Figures) (Selectmen recommend 3 to 0.)

Article #15. To see if the Town will vote to raise and appropriate the sum of \$74,320 for General Government: \$31,900 for Planning Board, \$40,420 for Government Buildings, and \$2,000 for Southern New Hampshire Planning Commission. (Selectmen recommend 3 to 0.)

Article #16. To see if the Town will vote to raise and appropriate the sum of \$2,250 for repainting of the Town Clocks, located in the steeple of the Chester Congregational/Baptist Church; such work to include repainting of the black clock faces, surface repairs and re-application of gold leaf to the numerals and minute markers on all three clock faces; such work to be performed by the same crew hired during the upcoming re-painting of that steeple intended for this year, and, with a request that, if appropriated, such funds be held over, if necessary, into the next fiscal year if the re-painting of the church's steeple is not performed during this fiscal year. (By Petition)
(Selectmen recommend 3 to 0.)

Article #17. To see if the Town will vote to adopt the following as an ordinance under RSA 31:39:

Traffic Control Ordinance for Town Hall-Library-Post Office Property

1. Purpose. This ordinance is intended to promote the safety of motor vehicle traffic at the Town Hall, Library, and Post Office, located on Town-owned land identified as Tax Map 16, Lots 7 & 8 (the "Property ") by restricting all driveways to one-way traffic only.

2. Entrance Only. The driveway which intersects Chester Street westerly of the Post Office shall be restricted to traffic entering the Property to Chester Street.

3. Exit Only. The driveway which intersects Chester Street easterly of the Post Office shall be restricted to traffic exiting the Property to Chester Street.

4. On-Way Traffic. All driveways on the Property shall be restricted to one-way traffic in a counterclockwise direction from the entrance to the exit.

5. Signage. The traffic restrictions of this ordinance shall be posted with appropriate signs to indicate the proper entrance, exit and direction of traffic.

6. Penalty. Violation of this ordinance shall be punishable by a fine not to exceed \$1,000 for each offense.

7. Effective Date. This ordinance shall take effect upon passage.

Article #18. To see if the Town will vote to raise and appropriate the sum of \$299,224 for Public Safety which includes \$207,349 for the Police Department, \$25,000 for the Ambulance, \$32,500 for the Fire Department, \$4,500 for Forest Fires and Fire Trails, \$2,000 for Emergency Management, \$3,500 for Other Public Safety, and \$24,375 for the Building Inspector. (Selectmen recommend 3 to 0.)

Article #19. To see if the Town will vote to raise and appropriate the sum of twenty-five thousand dollars (\$25,000) to purchase a new Police Cruiser and to authorize the withdrawal of eleven thousand dollars (\$11,000) from the Capital Reserve Fund created for that purpose; the balance of fourteen thousand (\$14,000) is to come from General Taxation. (Selectmen and Planning Board recommend.) (Majority Vote Required)

Article #20. To see if the Town will vote to raise and appropriate the sum of \$8,000 for the purchase by the Police Department of a four wheel drive vehicle, as recommended by the C.I.P. as adopted by the Planning Board in April 1991 and amended in May 1996. (Selectmen and Planning Board recommend.) (Budget Committee does not recommend.)

Article #21. To see if the Town will vote to raise and appropriate the sum of \$185,900 to defray the expenses of the Highway Department. (Selectmen recommend 3 to 0.)

Article #22. To see if the Town will vote to authorize the Selectmen to appoint a Road Agent to become effective in May of 1999, all pursuant to RSA 231:62. (Selectmen recommend 2 to 1.)

Article #23. To see if the Town will vote to raise and appropriate the sum of \$20,000 for the construction of a Town Salt Shed; as recommended in the C.I.P. Plan adopted by the Planning Board April 1996 and amended May 1996. (Selectmen and Planning Board recommend.)

Article #24. To see if the Town will vote to raise and appropriate the sum of \$6,000 to survey a portion of the Town's right-of-ways. (Selectmen and Planning Board recommend.)

Article #25. To see if the Town will vote to raise and appropriate the sum of \$27,760 for the re-construction and replacement of Towle Road Bridge. (Selectmen and Planning Board recommend.)

Article #26. To see if the Town will vote to establish a Capital Reserve Fund under the provisions of RSA 35:1 for the re-construction of Lane Road, as recommended by the C.I.P. as adopted by the Planning Board in April 1991 and amended in May 1996; and further to raise and appropriate the sum of One Thousand Dollars (\$1,000) to be placed in this fund. (Selectmen and Planning Board recommend.) (Majority Vote Required)

Article #27. To see if the Town will vote to establish a Capital Reserve Fund under the provisions of RSA 35:1 for the re-construction Candia Road, as recommended by the C.I.P. as adopted by the Planning Board in April 1991 and amended in May 1996; and further to raise and appropriate the sum of One Thousand Dollars (\$1,000) to be placed in this fund. (Selectmen and Planning Board recommend.) (Majority Vote Required)

Article #28. To see if the Town will vote to raise and appropriate the sum of Twenty-Five Thousand Dollars (\$25,000) for the re-construction of a portion of Candia Road north of the North Pond intersection. (Selectmen recommend.)

Article #29. To see if the Town will vote to accept as a Class V High

way, Cedar Drive, in its entirety, as shown on a certain subdivision plan entitled Candia Road Estates, Candia Road, Chester, New Hampshire, Map 11, Lot 31, Owners Harold and Priscilla Towne by Donald C. Jenks, LLS, RR2, Box 9B, Center Barnstead, New Hampshire dated March 28, 1991 and recorded in the Rockingham County Registry of Deeds as Plan #D21815 . Acceptance shall be conditional on certification by the Chester Planning Board that the road meets all specifications of the subdivision regulations for roads. (By Petition)

Article #30. To see if the town will vote to accept as a Class V highway Raven Drive from Fremont Road, to the circle. As shown on a certain Subdivision Plan, entitled Subdivision of land, Hemlock Knoll in Chester, New Hampshire. Prepared for Jacob Donigian by P.W.Z North Land Surveying Inc. Dated January 25, 1990, and recorded as plan number #D20886. (By Petition)

Article #31. Shepard Home Realty Corp and the undersigned owners hereby petition the Town to accept as a Class V highway Meadow Fox Lane from Pheasant Run Drive to the corner of Meadow Fox Lane and Quail Hill Road and Eagle Crest Drive, a cul-de-sac, off Meadow Fox Lane (as shown as phase 4 and 5 on a certain subdivision plan entitled “ Subdivision of Land, Chester Hill Estates in Chester, New Hampshire “ by McKenzie Engineering Group, dated August 19, 1994, and duly recorded in the Rockingham County Registry of Deeds as Plan #D-24143 (phase 4) and #D-25268 (Phase 5). (By Petition)

Article #32. To see if the Town will vote to accept, as a Class V Highway, Laurel Hill Road, in its entirety, as is extends from Lane Road at Lots 12-2 and 54-25 and ends at Lane Road at Lots 54-1 and 54-2, which road is more particularly shown on subdivision plans entitled “ Sub-division Plan of Lots 11-54-11 and 11-54-12, located on Lane Road in Chester, N.H., Owners of Record: John and Edward Cooper, P. O. Box 269, Derry, N.H. 03038 “ by B.V. Pearson Associates, Inc. Land Surveyors and Engineers, Date: November 4, 1994, recorded in the Rockingham County Registry of Deeds as Plan #D-24027, and “ Final Subdivision Plat of Land in Chester, NH Tax Map 11 Lot 54-1, Lane Road, Owned by John and Edward Cooper, Subdivision name: Laurel Hill of Chester”, Date: April, 1994, Gerald H. Miller, Surveyor, recorded in Rockingham County Registry of Deeds as Plan #d-23107. (By Petition)

Article #33. To see if the Town will vote to raise and appropriate the sum of \$13,147 to defray the expenses of the Welfare Department: \$9,050 for Direct Assistance and \$4,097 for Intergovernmental Welfare payments. (Selectmen recommend 3 to 0.)

Article #34. To see if the Town will vote to raise and appropriate the sum of \$158,020 for Waste Management which includes \$133,020 for the Chester Disposal Area, \$20,080 for the monitoring wells at the Chester Disposal Area, and \$5,000 for Solid Waste Engineering. (Selectmen recommend 3 to 0.)

Article #35. To see if the Town will vote to raise and appropriate the sum of \$18,714 for Town Health, \$2,570 for Pest Control, and \$16,144 for Other Health. (Selectmen recommend 3 to 0.)

Article #36. To see if the Town will vote to raise and appropriate the sum of \$70,510 for Culture and Recreation, which includes \$49,900 for the Chester Public Library, \$7,150 for the Cable Committee, \$10,510 for Parks and Recreation Commission, \$1,300 for the Chester Conservation Commission, \$150 for Patriotic Purposes, and \$1,500 for Senior Citizens. (Selectmen recommend 3 to 0.)

Article #37. To see if the Town will vote to raise and appropriate the sum of \$3,500 for the support of the Town Fair. (Selectmen recommend 3 to 0.)

Article #38. We, the undersigned, all registered voters in the Town of Chester, hereby petition the Planning Board to amend the Zoning Ordinance and take the necessary steps to enroll the Town of Chester in the National Flood Insurance Program. (By Petition) (Planning Board recommends.)

Article #39. To see if the Town will vote to authorize the Board of Selectmen, indefinitely, until specific rescission of such authority, to accept on behalf of the Town, gifts, legacies, and devises made to the Town, in trust, for any purpose as permitted by RSA 31:19. (Selectmen recommend 3 to 0.)

Article #40. To see if the Town will vote to authorize the Selectmen to

sell surplus equipment at public auction or by sealed bids. (Selectmen recommend 3 to 0.)

Article #41. To see if the Town will vote to authorize the Selectmen to allow a discount of 1% on all property taxes paid in full within 10 days after mailing the property tax bills. (Selectmen recommend 3 to 0.)

Article #42. To transact any other business that may legally come before the Town.

Given our hands and seal, this 21st day of April in the year of our Lord, Nineteen Hundred and Ninety-Seven.

The Chester Board of Selectmen
Chester, New Hampshire

Andrew L. Hadik, Chairman
Eric C. Nyberg, Selectman
Colin M. Costine, Select-
man

State Representative Report

The 1996 session of the New Hampshire Legislature began on January 2 and ran through June 13, the final session day.

The Executive Departments and Administration committee of which I am a member reviewed and reported on 89 bills necessitated long hours of public debate and discussion. Bills needing extra work were put into study, which required that subcommittees met well into the fall.

This past year I sponsored four bills that were heard by various committees.

HB# 1484 dealt with the problems of unfunded mandates, which is in violation of our constitution, which state agencies continue to pile onto the cities and towns. This bill was heard by the House Legislative Administration Committee, rereferred to a study committee, which never met and was killed by a motion inexpedient to legislate. This bill with slight changes has been resubmitted for the 1997 session.

HB#1295 dealt with the problems associated with the reformulated gasoline that we are forced to use. The state was asked to exempt all the counties from the requirement to use reformulated gasoline and to conduct a study to show the effect on motor vehicles, machinery and small gas engines. This bill was referred to the committee on Science, Technology and Energy. This committee did not feel that there were any problems and voted inexpedient to legislate.

HB# 1230 was to delete the authority of the boxing and wrestling commission to oversee amateur boxing and wrestling. The commission would retain its authority over professional boxing and wrestling. This was a result of the passage of HB#105 in 1995 which required the commission to cooperate with USA Boxing. The bill was heard by the Executive Department and Administration committee which rereferred the bill to 1997 to allow extra time for compliance by the commission.

HB#1239 revises the regulatory authority and duties of the Board of Auctioneers and establishes professional standards for auctioneers. It would increase public protection. This bill was heard by the Executive Department and Administration, and voted out of committee ought to pass. The bill was passed by the whole house and forwarded to the senate. The senate found the bill inexpedient to legislate after the New Hampshire Auctioneers utilized a lobbyist to ensure that the bill would be defeated. New legislation to deal with the problems that exist has been filed for the 1997 session.

On November 5th the voters of Rockingham County District 10 (Chester & Fremont) gave me their support for another two years as their Representative to the General Court in Concord: I thank you for this honor and will continue those conservative policies which I have practiced in my previous two terms as your representative.

My job is made easier when you are willing to share your thoughts and ideas with me.

I may be reached by phone at 483-8792 or you may write to me at 157 Smith Rd., Chester, NH 03036-4030.

Respectfully submitted,
Jon P. Beaulieu
Representative
Rockingham District 10

Report of the Zoning Board of Adjustment

In the past year, this board has continued to perform our principal role of addressing appeals from administrative decisions, and reviewing applications for zoning variances and special exceptions. Another important function of this board is to interpret the intent of the zoning ordinance, which we have been called upon to do several times this past year.

Sometimes praised, and sometimes criticized, this board of dedicated volunteers strives to exercise proper judgement in all matters coming before us, taking into consideration the best interests of the Town of Chester and the needs of the individual.

At the same time we are guided by the intent and spirit of the Zoning Ordinance. We must also take into consideration the impact that individual requests for zoning relief have on other property owners, and to what benefit to public interest there may be. The most difficult decision is to alleviate an injustice or hardship without granting an illegal variance.

The Zoning Board and the Planning Board must maintain our posture as independent entities within the Town Zoning process. This year we have separated our budgets in order to better maintain fiscal responsibility.

I would like to thank the following Board Members for the unselfish contribution of their valuable time to the service of their community:

Janice Jeans

Charlotte Lister

Dave Hill

Cynthia Herman

Janet Boyden, Administrative Assistant

Respectfully submitted,
Billie Maloney, Chairperson Z.B.A.

Report of the Chester Public Library

This past year the Chester Public Library checked out 53,083 materials!! The statistics just keep climbing year after year. We welcomed 243 new patrons this year and we added 2,626 new materials for you to check out! More and more people are using the Library and this year we were able to provide patrons with yet another valuable service thanks to the generous people at Granite State Telephone. We were given a \$1,000.00 check from Granite State Internet to match \$1,000.00 in donations we received to purchase a new computer. The purpose of this computer is so that patrons can have access to the Internet at no charge. The Trustees and staff of the Library are very excited to be able to offer this service to patrons who've never "surfed the net" and feel they are missing out on the information superhighway. This was a service we could not have afforded to offer without the help of Granite State and the Pioneer Club. This is a big leap for us and we hope you will all come in and try it out!

This past year we also hosted our very first author signing, which was all the more exciting because the author, Ed Hewson, is from Chester and he is also now a member of the Library Board of Trustees. We had an overwhelming turn out and shortly we will be hosting another signing for Sharon Schulz an author with Chester ties also.

The Library continued many of its other services this year as well, such as Food for Fines, the annual cookie walk, book sales, Skills Workshops, and Great Books. The Library also hosted its annual Mardi Gras celebration along with The "Big Cheese" day and a special evening of violin with Mary Ann Schroeder.

This summer's Reading Program was a huge success and a lot of fun for all those involved! The theme this year was "Reading is the Best Game Around" and we tied that in with the Atlanta Olympics. Children learned about other cultures and the games they play. They also learned the history of Greece and about the Olympic rings and at the end of the program, all of our "athletes", received a Certificate of Participation and a Gold Medal in a ceremony complete with the releasing of two white doves!

As you can see, it has been another very eventful year for the Chester Public Library and we look forward to seeing even more of next year!

Hours of operation

Monday and Wednesday	6:00 p.m. - 9:00 p.m.
Tuesday and Thursday	10:00 a.m. - 8:00 p.m.
Friday	10:00 a.m. - 5:00 p.m.
Saturday	9:00 a.m. - 1:00 p.m.

(closed Saturday's in July and August)

Report of the Board of Selectmen

The past year has been very busy for the Board and Office of Selectmen. The weather wreaked havoc, first with a 100-year flood event and then with a major snow storm. There was widespread damage to Town roads, culverts, and bridges, and many residents found themselves isolated and / or without utilities. The Board was kept busy with emergency management reviews and numerous meetings with state and federal officials from FEMA. Due to these events and the increasing number and complexity of Town government issues, the Board now meets at least three times a month.

The landfill closure and transfer station construction projects were approved by the Governor for State Revolving Fund bonding at a 2.89 % interest rate. The Town received six bids for the transfer station site work. Unfortunately the preliminary budget cost estimates from contractors who expressed interest in bidding on the project were far lower than the actual bids received later. The Board accepted the lowest bid, and then deleted the second compactor bay from the plan with a change order approved by the NH DES. The Board also deferred accepting bids for the recycling building until the landfill closure bids were received. The reason for these changes were to ensure there would be enough funds to complete the landfill closure.

At the writing of this report, the bidding process for the landfill closure has been completed. Seven bids were received, the lowest of which was accepted pending DES approval. Although the closure cost per acre was higher than had been hoped for, it now appears there will be enough funding within the budget to build the recycling building. The bid proposal for the building should be released shortly.

Construction of the transfer station is well under way and should be completed by Town Meeting. The household solid-waste compactor should be operational in early May. Because the recycling building will not be ready, the current recycling layout will have to be relocated to an interim location at the new transfer station. We ask for your patience and understanding regarding any temporary inconveniences. The Board would also like to thank the Recycling / Solid Waste Committee members for all their hard work and involvement in the transfer station and landfill closure projects.

The Town Hall itself has been the center of significant renovations. The State Lift Inspector condemned the handicap access lift due to condition and newer regulatory requirements. The Board was required to petition the state's Department of Revenue Administration for an emergency spending authorization of \$20,000 to replace the lift. One of the furnaces also had to be replaced. Damage was caused by high winds and a lightening strike. Storm windows were added, plumbing was repaired, and video equipment installed to air meetings on cable Channel 51. We hope to continue these renovations in the coming year, including repairing the

roof, exterior painting, and finalizing the upgrading of the heating system.

The staff of the Office of Selectmen have also had a very busy year. Demands on the staff required the addition of another part-time employee. Land "current use" and census records were computerized. Staff cross-training was continued to lessen the impact of training seminars, illnesses, or vacations on office productivity. The growth of the Town is certainly being reflected not only in the increased workload and space needs of our office staff, but also those of the Town Clerk and Tax Collector, the administrative assistants of the Planning and Zoning Boards, and other departments. We will be requesting funding to add additional office hours to keep pace with the ever-increasing workloads.

The Board also appointed a number of new members to the Planning Board, Zoning Board of Adjustment, Conservation Commission and others. We continue to mediate and refer issues to the appropriate boards and committees such as continued requests to build on Class VI roads, home occupation disputes, composting operations, and junkyard complaints etc..

If you are concerned about preserving the character of our nice town and have some time to donate, please consider serving on a board or committee. Greater participation eases the load on other members (some of whom have been volunteering for many years now), increases efficiency, and certainly strengthens the democratic processes of local town government which we are so fortunate to enjoy.

The Board of Selectmen

Andrew L. Hadik, Chairman
Colin M. Costine
Eric C. Nyberg

Planning Board Report

Over the past year, the Planning Board finished working on the Master Plan, Capital Improvements Program and Subdivision Regulations. The Board is waiting for the final Master Plan document from Southern New Hampshire Planning Commission, then a public hearing will be held. The Capital Improvements Program has already had a public hearing and has been adopted by the Planning Board. The Subdivision Regulations should take effect in April. Over the next year, the Board plans on updating Excavation Regulations and Site Plan Review Regulations.

Following a "Round-Table" discussion with all department heads, a "Needs Assessment Subcommittee" was formed. In November, an all day workshop was held which was attended by 24 Chester residents. This subcommittee's job was to present to the Planning Board, recommendations for the orderly development of Chester's building space needs. Through the winter, the subcommittee refined the plan and on March 12, 1997, presented the final plan to the Planning Board. The Board expects to have a report available for the public following the Boards review to see how the plan meshes with the Master Plan and Capital Improvements Program. The Planning Board is grateful to the subcommittee for all the time and effort they put into the development of the plan.

After discussions with Southern New Hampshire Planning Commission and their consultants, the Board decided the town was not ready for an Impact Fee Ordinance. The cost of administering this type of an ordinance would outweigh the benefits the town hoped to receive. Currently, when a subdivision is developed, off-site money is received for road improvements. The Board will continue to look at other alternatives to help lessen the tax burden.

Three lines in the Planning Board budget will increase this year; 1) The Administrative Assistant: Added responsibilities being placed on the Planning Board due to changes in the law are requiring more office time and a degree of experience in the staff. 2) Contracted Services: Through the course of a year, there are unplanned occasions where the Board finds the need to hire outside assistance (planning consultants, engineers). The Board does not want to run the risk of having to forego the use of this expertise. This action could have a major impact on decisions made by the Board. 3) Office Equipment: Additional file space is needed.

A Petition to enroll the Town of Chester in the National Flood Insurance Program (NFIP) is being presented to the voters. The Planning Board urges you to support this petition. In past years, the Planning Board has not supported this action because we were never able to get a clear answer as to whether development can be restricted in the Flood Plain. This year we were given a clear answer. The Planning Board can restrict development in the Flood Plain. The process to join the NFIP is a lengthy one. It starts with the voters authorizing the Planning Board to begin the process to enroll the town in the NFIP. Following a majority vote, the

Planning Board will ask the Board of Selectmen to submit the necessary application to the U. S. Dept. of Housing and Urban Development. When accepted, the process of developing maps which show the flood hazard areas will begin. The Planning Board will then propose amendments to the town's zoning ordinance. If necessary, the Planning Board will ask the Board of Selectmen to authorize a "Special Town Meeting".

The creation of new subdivisions in Chester over the past year has centered around the moderate income development on Sandown Road. This thirty (30) lot subdivision is being developed under Article 7 - Incentive for Low-Moderate Income Housing. The development has to date, not been approved by the Planning Board. Being the first time this Article has been used, the Planning Board is finding areas that need to be looked at closely and revised. This is going to require input from outside sources.

Two of the "older" subdivisions are becoming active. One is the forty (40) lot cluster subdivision on North Pond Road and the other is Phase V & VI (24 lots) of the Shephard Home Realty Development off of Pheasant Run. When Phase VI of the Shephard Home Realty Development is developed, a road will be built connecting Jennifer Drive to Meadow Fox.

The Planning Board is proposing numerous zoning amendments. They are as follows:

- Amendment #1 Amend the Building Code to adopt the updated version of CABO Single-Family and Two-Family Residential Code, 1995.
 - Amendment #2 Amend the Zoning Ordinance as follows: New definitions for Subsection 2.1 - Abutter and Subsection 2.33 - Certified Soil Scientist
 - Amendment #3 Amend the Zoning Ordinance as follows: Prohibit the use of runways and heliports in the commercial and residential zone.
 - Amendment #4 Amend the Zoning Ordinance as follows: Increase the contiguous non-wetland area from three quarters (3/4) of an acre to one (1) acre.
 - Amendment #5 Amend the Zoning Ordinance as follows: Subsection 5.3.3.8 - Golf Course
To allow golf courses in the Residential Zone by Special Exception provided they meet the criteria set forth in this subsection.
 - Amendment #6 Amend the Zoning Ordinance as follows: Subsection 4.9 - Home Occupation
4.9.5 - On-Street Parking - To require on-site parking.
4.9.6 - Procedure - Require a permit issued by the Planning Board.
 - Amendment #7 Amend the Zoning Ordinance as follows: To establish a Telecommunication Facility District to limit such facilities which must be allowed under Federal law, regulations
-

pertaining to such a district and show the districts on the town zoning map.

The Planning Board asks that you

Please vote "YES" on the above proposed amendments.

The Board welcomes any questions and input regarding its regulations. The Board is always looking for new members. Anyone interested, should contact the Board of Selectmen's Office or attend a Planning Board meeting. The Planning Board meets the first, second and fourth Wednesday of the month in the Town Hall at 7:30 P. M.

The Planning Board has office hours Tuesday and Thursday, 8:30 A. M. to 4:30 P. M. (the building closes at 1:00 P. M.). The office telephone number is 887-5629. If this schedule changes, a notice will be posted outside Town Hall.

Highway Department

Much progress has been made in improving Chester's roads this past year, even though unusual weather has created unexpected problems.

Gravel roads were graded, roadside maintenance took place as well as paving portions of gravel roads. Grading of gravel roads continues to be an ongoing process. I am using a new product called Recycled Asphalt Pavement (RAP). I have used RAP on portions of gravel roads and it has proven to be a good replacement for gravel. While the cost is slightly higher than gravel (approximately 25%), it holds up well. The portions of road which received this material did not wash out during the flooding and heavy rains in October, remained in place after winter plowing and will not have to be graded in the spring. RAP appears to be the most cost effective way to treat our gravel roads if we are not going to pave them in the near future. My plan for this summer is to apply more of this material to problem spots and the more heavily traveled gravel roads.

After some delays because of equipment breaking down, the Candia Road project got started. This project involved replacing and adding new culverts, creating a solid base by grinding up existing material and adding gravel, roadside ditching was improved and new pavement was put in place. This project was partially funded by the Planning Board who had received off-site money from developers for improvements to Candia Road. This summer I would like to continue the Candia Road project per the Planning Boards Capital Improvements Program.

The flooding in October caused a lot of damage to the town's roads, some of which still has to be repaired. I have been working closely with the people from the Federal Emergency Management Agency (FEMA). These are the people who we are receiving funds from to help pay for repairs to our roads due to the flooding.

This process is a real learning experience when it comes to working with the bureaucracy. Repairs immediately after the flooding were very slow because work done before a disaster was declared would not be covered. Only work to make the roads passable could be done and pictures had to be taken before any work was performed. By the time the President had declared the area a disaster, almost two weeks had gone by. Then we had to wait for FEMA officials to come and view the damaged areas and assess them. At this point, we were nearing the third week of November.

Given the short time left to the season. I had to set priorities. My priorities centered around doing what had to be done to get ready for winter. These priorities included repairs to Candia Road, repairs to the damaged bridges and the application of gravel and grading of the most heavily damaged gravel roads.

The documentation of damage and its repair is a priority in order to receive the funds the town is entitled to. Over the next twelve (12) months as projects are completed, proper identification and documentation of all the details of the repairs and their costs must be submitted to the New Hampshire Emergency Management

Agency for the additional funds. Otherwise, we will lose the funds.

I have also applied for financial assistance to help replace the bridge on Towle Road and Edwards Mill Road. In their present condition, the culverts are too small to handle the volume of water and debris that pass through them. The culverts become obstructed by the debris causing the water rise up over the road damaging the road and abutting private property. The funding will be 75-80% federal/state and 20-25% from the town. A warrant article is being presented to the voters to fund these projects.

The flooding caused roadside ditches and culverts to become obstructed and they will be cleaned out starting in the spring.

The heavy snow and wind in December caused extensive tree damage. Tree trimming services and equipment were unavailable. The Highway Department crew cleared out what they could. More extensive tree work will be conducted this spring when the equipment is again available. I would like to thank everyone who, with their pickup trucks and chainsaws, helped the Highway Department with this task. This was done out of their own generosity and it was appreciated.

Street signs in town continue to come and go. At the request of the Highway Safety Committee, "Warning" signs were placed at Hanson and Shephard Home Roads and on Reed Road. Missing signs are noted and are replaced when feasible.

I would like to take this opportunity to thank all the employees who work for the Highway Department. Your time and hard work through the flooding and snow storms was invaluable. A special thank you goes out to the Fire Department, for their dedication, time and effort in helping the town, its residents and the Highway Department during the flooding in October and the snow emergencies.

Roads Paved

Birch Road, Lane Road, Harantis Lake Road, Harantis Lake Road Ext. and Shephard Home Road.

Road Reconstruction

Candia Road - one half mile.

Respectfully submitted,
Carl Morin
Road Agent

1996-97 Town Report

Chester Conservation Commission

The Chester Conservation Commission is a seven-member board appointed by the Selectmen under the provisions of New Hampshire State law to oversee conservation-related matters in the town. The Conservation Commission is active in reviewing subdivision plans for their impact on rivers, ponds, surface waters and groundwater. The Commission is pro-active on preserving open space, educating the public on conservation issues, and generally acting for the community's behalf.

1996 Accomplishments - The Spring Hill Farm agreement resulted in the protection of 400 acres of conservation land. The Commission assisted the Office of Selectmen and Planning Board in their effort to maintain the current status of Class 6 Roads to help protect undeveloped land. The Commission sponsored a report and presentation entitled "Property Tax Impact Study for the Town of Chester – The Effect on the Tax Rate of Increasing Development". The Commission has been active with State agencies on issues including permitted/non-permitted wetland and soil erosion activities in town.

The Conservation Commission meetings are held on the second Tuesday of every month at 7:00PM at Town Hall, and public input is always encouraged.**1997**

Warrant Article: The Conservation Commission has been working with the Selectmen's Office, Planning Board, Budget Committee, and other individuals on this warrant article for over two years. The warrant article will ask the voters of Chester to set aside a portion of the Land Use Change Tax each year to help reduce future tax burdens on residents while preserving Chester's rural character. The following information on the warrant article is submitted to expedite the Town Meeting by anticipating many of the questions you might have on the article. Please call a member of the Conservation Commission if you have any additional questions.

What is the Warrant Article requesting?

- The proposed warrant article asks the voters to establish a **Conservation Fund** by setting aside up to a maximum of \$20,000 each year from the **Land Use Change Tax** revenues. The warrant article will also create a **Strategic Development Committee** that will make decisions and recommendations on the use of such funds to best control the growth rate and property tax rate of the town. Presently, the most cost-effective use of the funds would be to assist owners of undeveloped land with costs associated with the placement of protective **Conservation Easements** on their properties.
 - The **Conservation Fund** would be used primarily to reduce future property taxes for all taxpayers by controlling the number of acres available for development in town through the acquisition of conservation easements or in some
-

cases selected parcels of land. A public hearing would be held prior to the use of the funds. The **Strategic Development Committee** must approve payment and restrictions placed on the property by the landowner before conservation funds are allocated. The funds will be used by the Strategic Development Committee to pay appraisal fees, surveying fees, legal fees, or other administrative fees associated with the placement of a conservation easement. The Selectmen and the Strategic Development Committee must both approve any purchase of land from the Conservation Fund.

- The **Land Use Change Tax** is a 10% tax collected by the Town whenever undeveloped land that was assessed under “Current Use” is removed from that status for possible development. The 10% tax is currently deposited into the Town’s General Fund. **THE WARRANT ARTICLE DOES NOT IMPOSE AN ADDITIONAL TAX.** It simply redirects the tax from the General Fund into a conservation fund to be used towards land use activities that can have long-term benefits to the residents of the Town.

Why is this fund necessary?

- Chester is facing escalating growth. Undeveloped land is rapidly being turned into subdivisions. Both the school and town budgets reflect this strain. Our property taxes are rising at an alarming rate and will continue to do so unless some way is found to control growth. Establishment of a Conservation Fund and the Strategic Development Committee will create a mechanism to identify desirable properties and make the funding available to protect them from development.
- Over the years undeveloped land costs taxpayers very little. Unfortunately to the individual taxpayer in town, whenever undeveloped land is converted into multi-home subdivisions it results in higher taxes. The tax burden from the average new home built in town exceeds the tax revenues collected by the town. Presently, the average increase to the Town’s Budget for each new home is more than \$4700.00 per year. (1996 “**Property Tax Impact Study for the Town of Chester NH: The Effect on the Tax Rate of Increasing Development**”).
- The rural character of Chester is being lost. Currently, our town is a very desirable place to live and raise a family. All residents who cherish this rural atmosphere have a stake in this warrant article. Placing easements on land or buying selected parcels to preserve open space is one way to ensure that Chester stays rural, maintains high property values, and saves taxes.

What are Conservation Easements and their Benefits?

- A Conservation Easement transfers the development rights of land to a qualified organization (in this case, the Town of Chester) so that the land can be protected from unwanted future development. The original owner retains ownership of the land. The owner and their heirs can continue to use the property for all other activities including agriculture, timbering, and recreation.

- A Conservation Easement will not in itself change the property tax revenues collected on the property. In most cases the land is already classified as "Current Use" and property taxes collected by the town will not change.
- The residents of the town can expect a significant benefit from the Conservation Easements placed on properties due to the fact that tax revenues will still be generated for the town but the land will be permanently restricted from development. Approval of the warrant article could result in hundreds or thousands of acres of land being inaccessible for development. This would significantly reduce future property taxes and help retain the rural character of Chester.
- Placement of Conservation Easements on property is strictly on a voluntary basis and each owner will have different incentives. Benefits for property owners could include their security in knowing that the land they have maintained and cared for over the years would be preserved forever for their families. Conservation easements are variable in their makeup, the parties decide what the easement restrictions will be on the property. The easement can be written to allow children and grandchildren a place to build homes in Chester while protecting the majority of the property from development. Conservation Easements are considered "gifts" by the Federal Government and have potential federal income tax benefits. The payment of inheritance taxes could be significantly reduced on large estates if the land had been previously placed under a Conservation Easement.

What will this cost you as a taxpayer?

- When the Current Use Change Tax revenue is diverted from the General Fund, that money becomes unavailable to defray other town costs. The maximum tax impact of this warrant article is twenty-five cents per thousand. This would result in a maximum of \$15.00 for a home assessed at \$60,000 or \$25.00 for a home assessed at \$100,000. Depending on the acreage removed from Current Use the tax impact could be considerably less in some years.

Conclusions:

- Adoption of this article will help the residents protect the open spaces of Chester through the very tax (Land Use Change Tax) that is collected when land that was previously protected under "Current Use" is lost to development.
 - The article will give the town an opportunity at controlling its own growth, reducing future property taxes, and maintaining the small town rural character of Chester.
 - Chester would join 63 other New Hampshire communities that already have similar funding to help control development and preserve open space. However, Chester is the only town that has specifically included provisions to control its property tax rate.
 - Chester has approximately nine thousand (9000) acres of undeveloped land
-

protected under "Current Use". Please support our efforts by voting at Town Meeting on May 15, 1997 in favor of this article.

Respectfully submitted,

Chester Conservation Commission

Brad Wamsley, Chairperson

Greg Lowell, Recording Officer

Gladys Nicoll, Treasurer

Larry Benjamin

David Hardy

Maureen Lein

Camilla Lockwood, Planning Board Representative

Elizabeth Hayward, Alternate

Andrew Hadik, Selectmen Representative

WARRANT ARTICLE (1997)

To see if the Town will vote to deposit 100%, not to exceed \$20,000.00 in any one fiscal year, of the revenues collected from the "Land Use Change Tax" pursuant to RSA 79-A into a conservation fund in accordance with RSA 36-A:5 III as authorized by RSA 79-A:25 II for the preservation and protection of open space (Undeveloped Land) through acquisition of conservation easements or title to land and for associated costs; and to establish a Strategic Development Committee to identify and make strategic recommendations on parcels of land that should be placed under conservation easement or acquired by the Town.

The committee will consist of one Selectmen, one planning board member, one member of the public, and two members of the Conservation Commission. The Town Moderator will appoint the member of the public for a three-year term.
(The Selectmen recommend this appropriation.)

The Conservation Commission has voted to be bound by all decisions made by the Strategic Development Committee regarding the use of funds collected from the Land Use Change Tax.

Chester Recreation Commission Report — 1996

The all-volunteer Recreation Commission for the Town of Chester, which oversees the Recreation & Parks budget, serves the recreational needs of the town by maintaining and improving the town's primary recreational area — the French and Nichols field, coordinating recreational agreements with the Town of Derry Soccer Club which allow Chester children to participate in basketball and soccer activities, sponsoring its own basketball and volleyball programs, and running a 6-week Summer Program for over 100 Chester children.

1996 Report:

Summer Program: Over 100 Chester children participated in the 6-week summer program that began the first week of July. Qualify counselors and assistants led Chester children ages 6 to 12 in games and activities and took them on field trips. This program will be repeated again this year. Sign-up sheets will be distributed at the school or you may contact this commission. No child will be turned away from any of these programs for financial reasons. If the fee is a hardship, please speak privately to one of the Recreation Commission members. Due to an increase in the number of children participating, we have had to increase our budget this year to hire more counselors.

Facilities Improvement: The major improvement for the year was the installation of a well to provide much-needed water at the fields. The water is controlled from within the shed and is used for the Summer Program, Town Fair, athletic teams, and spot watering of the fields. A donated chain link fence was installed along the first base line of the 90-ft. diamond. A suggestion of resident Gene Charron, we participated in a program sponsored by the Rockingham County Corrections Department. A group of unpaid, supervised inmates worked at the fields for three days this past October cutting brush from the field perimeters and in the adjacent Natural Area.

Basketball Program: Adjustable baskets were purchased to start a basketball program for younger children on Saturday mornings. Programs for boys and girls are available. Contact Bob Henderson of this commission for information.

Derry-Chester Cooperation: Chester children are able to participate in the Town of Derry's basketball program and the Derry Soccer Club's programs through a cooperative arrangement whereby Chester provides its facilities (the school gym for basketball, the soccer field for soccer) for use by these programs. The Rec. Commission pays for use of the gym on Saturday mornings for Derry Rec. basketball and allows the Derry Soccer Club to use the town fields. All Chester children ages 5-18 are welcome to participate in these programs. Sign-up notices appear regularly in the Derry News.

1997 Plans/Comments:

Budget: There are no major projects planned for 1997. The submitted budget contains money for electricity, phone, portable toilets, garbage removal, and normal everyday supplies. There is a small amount of money for facilities improvement. There is increased spending for salaries/wages. An increase in the number of Summer Pro-

gram counselors is necessary due to the increased number of children attending. We also requested raises for counselors who are now in their fourth year with the program. The Summer Program does require fees from participants that help defray our budget. Last year approximately \$2000 was returned to the town General Fund and a similar sum is expected this year.

Capital Reserve: Under a separate line item, we are requesting a capital reserve amount of \$2000 to be set aside each year for the next 3 or 4 years for the purpose of constructing a new ballfield. Miss Church and the Trustees of Spring Hill Farm have told us that one of the only alternative uses for this conservation land is the building of a ballfield in the area off Shephard Home Rd. We envision this field as either a softball field or a "utility field" — basically a flat surface with small backstops like on the present soccer field. Either way, we envision a small, low impact field with very little physical structure besides backstops and benches. Federal matching funds are generally available for such projects, but in recent years the total amounts awarded in New Hampshire have dropped dramatically and are no longer "a sure thing".

Town Master Plan: We submitted our input for the Master Planning Session that took place last fall. Should the "old-school-to-town office" plane become a reality, we would like to assume recreation. However, assuming control of the gym would likely mean an increase in our budget for custodial services and maintenance. Also, any playing fields planned as part of new school construction should take into consideration the needs of the Recreation Commission. The present fields have always been used by the school teams and we believe that, except for the scheduling problems on the lower baseball fields, they are more than adequate. Should a new field be considered as part of a new school, the Commission would like to be consulted first so that we can plan accordingly.

Field Rules and Regulations: Since this report is our primary means of communicating with the town, we repeat here every year the rules governing usage of the town fields (as spelled out in the Town Master Plan). Priorities for field usage are set as follows (1 is highest priority); (1) Chester School athletic events, (2) Chester Baseball Program or Recreation Commission-sanctioned activities (3) All other activities (scheduled or unscheduled). Scheduling of the fields for other events, such as church picnics, field days, soccer leagues, or other school usage must be made through the Rec. Commission by contacting Town Hall.

Reminder: There are no horses or motorized vehicles allowed on the field. (And you might police your dogs a bit as well.)

As always, we continue to look to the town for guidance and suggestion.

Chester Police Department **Report for Calendar Year Ending 1996**

The Chester Police Department along with other community services had a busy year. The unusual amount of snow in the spring, the rain and flood in October, the heavy snow and winds in early December, along with the power outages that effected large parts of the community.

As a Police Department we have been busy investigating bicycle accidents, motor vehicle accidents and a lone plane crash. We have been called to investigate everything from missing dogs to burglaries. Chester has not been immune to activities that effect other communities, the domestics, the thefts and so on.

Motor vehicle accidents show an increase. I would urge all motorists to be considerate drivers and to drive defensively.

The Chester Police Department is now able to offer the **DRUG AND ALCOHOL RESISTANCE EDUCATION, "D.A.R.E."** program to the students at Chester Elementary School. The program shows every sign of success.

We would like to remind households that have alarm systems to service the systems and insure that they are working properly. They are only a deterrent if they are working properly.

Please insure that your house number is where it belongs to aide in locating your house for Fire, Ambulance and Police emergency services.

Members of the Chester Police Department would like to thank everyone for their continued support. The Police Department is here to provide a service to the community and can only be successful if we work together. We look forward to 1997 being another successful year and wish the same for you and your families.

Sincerely,
Alfred J. Wagner, Chief of Police

Fire Department Report

As many of you know, Red Dolloff retired from his position as Chief after twenty seven years in that position. This was effective in March and he will be missed. After all the time and effort that he put into the training of the department personnel and into the maintenance of our always ready status, he deserves a sincere "Thank You ". He certainly has the "Thanks " of the Department members. Stephen Tunberg has been appointed as the new Chief.

After many years of service our CPR manikins were in need of help. With funds supplied by Dean Leighton, we purchased replacement manikins in memory of John Rossetti. We wish to extend our " thanks " to Dean for his gift to the department.

The Fire Prevention Program continues in its efforts to make our kids and their families more aware of fire safety. We urge all of you to continue your efforts at fire prevention. Think safety in regards to all of your activities and remember to maintain your smoke detectors. Just a reminder, in the event of an emergency, 911 is the number to call.

We continue to participate in the HazMat group which provides us with a valuable resource. This adds to our training demands but we feel that it is time well spent.

In the event of an emergency, we must be able to locate you. Now that the plowing season is passed, it is time to go out and make sure that your number is on its post and clearly visible from the approach direction. Please keep in mind that the conditions are not always perfect when emergencies occur and the time that you spend making your number visible will be time well spent.

We would like to close this year's report by extending an invitation to towns people who think that they might want to join our Fire Department to come to the Station any Tuesday evening or Sunday morning. Our task is a demanding one but we find it to be a rewarding one as well.

Respectfully Submitted,
Chester Volunteer Fire Department

Report of Town Forest Fire Warden and State Forest Ranger

To aid your Forest Fire Warden, Fire Department and State Forest Ranger, contact your local Warden or Fire Department to find out if a permit is required before doing any open burning. Violations of RSA 227-L:17, the fire permit law and the other burning laws of the State of New Hampshire are misdemeanors punishable by fines of up to \$2,000 and/or a year in jail. Violators are also liable for all fire suppression costs.

There are ten Forest Rangers who work for the N.H. Division of Forests and Lands, Forest Protection Bureau. State Forest Rangers are available to assist communities with forest fire suppression, prevention and training programs as well as the enforcement of forest fire and timber harvest laws. If you have any questions regarding forest fire or timber harvest laws please call our office at 271-2217.

The State of New Hampshire operates 15 fire towers, 2 mobile patrols and 3 contract aircraft patrols. This early detection and reports from citizens aid in the quick response from local fire departments.

Report to the Town of Chester — Year 1996

Community Caregivers of Greater Derry

Community Caregivers of Greater Derry is a nonprofit agency serving the elderly, disabled and homebound members of our local communities through a volunteer network of caring residents. These volunteers enable our clients to remain independent in their own homes by providing services such as transportation, light chores, visiting, respite, shopping and telephone reassurance to needy residents of Londonderry, Derry, Hampstead, Sandown, Windham and Chester.

Caregivers was founded in 1988 by a group of people from the community and local churches who saw a need for volunteer services to supplement existing programs and to provide services not available at all or not affordable to many. Volunteers and clients both come to us through churches, local agencies, other community members or self referral. The program presently includes 150 volunteers helping a total of 210 people on a regular basis. Presently eleven of those people are Chester residents. Over the past 8 years we have helped over 750 residents of our service area. We continue to maintain a waiting list as the demand for assistance outpaces our volunteer capacity.

Some examples of the types of services we have provided in the past year to Chester residents include the following: an elderly woman who received rides to the hospital to visit her husband, another woman receives weekly help with cleaning, while another has a volunteer who visits weekly. We also provided twice weekly rides for 6 weeks to radiation treatments for another Chester resident. We are finding that there is a growing need for multiple services per person as people age. Some persons who have been clients for several years now need help in areas other than the original requested service. Now not only do we provide transportation, but we might shop, clean, rake leaves or just visit. We frequently go into homes for friendly visiting or light chores at times when the VNA is no longer involved due to financial constraints. Members of organizations such as RSVP, AARP, Easter Seals and the SHARE program are participants in our network of volunteers as well as Boy Scouts or Girl Scouts and Pinkerton students. We have also participated in the United Way Day of Caring for the past four years.

Our services foster independence by doing something for someone that allows that person to remain at home. Our client list represents a wide range of the population and includes persons of all ages on welfare, the unemployed, the elderly and young families. We thank the town of Chester and its residents for their continued support of our program.

Sincerely,

Martha Anderson
Director
11/96

Donna Leitner
Director

CTV-51 Year in Review

Chester's CTV-51 has had a successful year due to the dedication of its volunteers. Time is valuable to all of us and we are fortunate to have people willing to give their time for the success of the station. This year, the station was joined by new volunteers: Patty Hamm, Marge Godfrey and Dick Godfrey.

Programming has included various video tapes loaned to the station by residents who have shared their vacations, knowledge and interesting events as well as White Pines College students producing programs under the direction of R.D. Tilroe.

Highlights that brought many positive reactions from residents were "The Mighty Engines" made possible by Mr. Dick Sargent. Santa's ride on Christmas Eve once again went smoothly with the assistance of the Fire and Police departments. With the professional knowledge of Mr. Chuck Myette, Ch. 51 produced a very informative program explaining the need to close the present landfill and construct a transfer station. The Chester School final needs assessment meetings were taped and broadcast allowing all residents an opportunity to be informed.

We accomplished airing and Selectmen's meetings live from the town hall, and the annual town meeting will once again be live for the town's viewing and voting participation.

We have worked to produce a quality product for the town while saving money whenever possible with the purchase of used equipment and selective spending. This upcoming year we will continue our present projects and hope to purchase two new cameras to increase the quality and quantity of programming.

CTV-51 is an opportunity for all to share information, entertainment and learn. Our volunteers range from professional broadcast, electrician specialists, to generous people willing to give some time and learn a new skill.

Ron Bath
TV-51 Coordinator

Report of the Recycling/Solid Waste Committee

As you know, the past year has brought many changes to the old “dump.” The construction of the transfer station is progressing and is planned to be on line by the time of Town Meeting. The switch to individual vendors for handling our recycling has saved the town \$21,000 in the past year. Residents of Chester should be proud that in the last year they recycled 297 tons that would otherwise have gone into our landfill. We hope to further increase our recycling once the transfer station is on line by adding office paper, textiles, and anything else we can think of to reduce the waste stream. We would also like to create a “swap shop,” hopefully with the aid of some town volunteers. Any takers?

Waste Management has been chosen by this Committee and the Selectmen to handle our waste hauling services when the transfer station goes on line. Waste Management offered us the best overall service, and was the lowest bidder.

The landfill closure process is scheduled to begin soon. A request for proposal has gone out and a contractor for the closure will have been selected by the time of the Town Meeting. Recent sampling of groundwater in the landfill has shown low level concentrations of contaminants, which has resulted in DES asking the town to look for a source within the landfill. This activity will be performed during the landfill closure scheduled for this summer. If a source is found it will be removed. If no direct source is found, according to Nobis Engineering, capping should eliminate infiltration of rainwater, thus eliminating the impact to groundwater.

We anticipate that the clear bag program will save the town a significant amount in tipping and hauling fees, which will now be approximately \$60/ton. Early indications are that there is a significant increase in recyclables since instituting this program. Anything we can do to decrease the waste stream will save the town money. You may want to think about this as you purchase products. If you have the choice to purchase a product that has less packaging, there is then less to dispose of. If any of you have any suggestions for recycling, or would like to join the Committee, we would like to hear from you.

Committee Members:

Anne Pardo, Chair and Secretary
Paula Potter, Vice Chair
Charles Myette
J.R. Stephens
Lloyd Healy
Bonnie Healy
Andrew Hadik, Selectman Liaison

Report of the Southern New Hampshire Planning Commission

The Southern New Hampshire Planning Commission has a wide range of services and resources available to help the dues-paying members deal with a variety of municipal issues. Technical assistance is provided by a professional staff whose expertise is, when necessary, supplemented by consultants who are selected for their specialized skills or services. Each year, with the approval of your appointed representatives, the Commission staff designs and carries out programs of area-wide significance that are mandated under New Hampshire and federal laws or regulations, as well as local or site-specific projects which would pertain more exclusively to your community.

Technical assistance is provided in a professional and timely manner by staff at the request of your Planning Board, Board of Selectmen, and various municipal department heads. The Commission conducts planning studies and carries out projects that are of common interest and benefit to all member communities, keeps your officials apprised of changes in planning and land use regulation, and offers training workshops for Planning and Zoning Board members on an annual basis.

Services that were performed for the Town of Chester during the past year are as follows:

1. Co-sponsored the Municipal Law Lecture series. These meetings were attended by Chester officials.
2. Conducted traffic counts at several locations in the Town of Chester. Copies of the traffic counts were forwarded to the Chairman of the Planning Board.
3. The Regional Transportation Plan was updated and the Transportation Improvement Program FY '97-'99 was prepared. Copies were forwarded to the Chairman of the Planning Board and the Town's public library.
4. Provided a video entitled "Zoning and the ZBA" for the use of the Planning Board.
5. Provided informational material regarding the Telecommunications Act of 1996 to the Board of Selectmen, Planning Board and the Zoning Board of Adjustment.
6. Provided technical assistance to the Town and coordinated with the Office of State Planning regarding the requirements that needed to be met by the Town in order to establish eligibility for the National Flood Insurance Program.
7. Provided staff support to the Planning Board in its effort to develop and implement an impact fee ordinance.

Chester's Representatives to the Commission are:

Albert W. Hamel, Treasurer

Andrew L. Hadik

Executive Committee Member: Albert W. Hamel

The Exeter River Watershed Project

In August of 1995, the Exeter River was designated for protection under the NH Rivers Management and Protection Act (RSA 483). Under the terms of the designation, the Commissioner of the Department of Environmental Services, acting on recommendations from Select Boards, has appointed residents from each of the communities along the river to participate in the Exeter River Local Advisory Committee. The Exeter River has its headwaters in Chester, flows through Sandown, back through Chester, Raymond, Fremont, Danville, Brentwood and finally Exeter, where it becomes the Squamscott River at the Great Falls, and continues into Great Bay. It is the chief water supply for the Town of Exeter and its watershed (approximately 125 square miles) is a recharge area for wells along the way. The Towns of Kensington, Kingston and East Kingston are also in the watershed.

It is the responsibility of the Advisory Committee to develop a management plan for the long range protection of the river and watershed. The Committee is advisory in nature and any plan will be submitted to the planning board for review.

The Advisory Committee, along with the three additional towns, the Rockingham Planning Commission, Audubon Society of New Hampshire, NH Office of State Planning, NH Department of Environmental Services and several other agencies and organizations has embarked on a three year project to improve the protection of wildlife habitat and water quality in the watershed using local regulatory and non regulatory tools.

As part of the research necessary for such a project, a survey will soon be mailed to all riverfront landowners and other interested parties requesting feedback on river management issues such as water quality, public access and future land use. This spring, Audubon will be making an inventory and evaluation of selected wetlands, wildlife habitats in the watershed.

The Committee needs to hear from all who are concerned with the river's future. For further information on the Exeter River Watershed Project or the Exeter River Local Advisory Committee, please call Theresa Walker at the Rockingham Planning Commission, 778-0885, or Camilla Lockwood at 887-3271.

The Educational Trust for Chester, N.H.

As those of you who subscribe to, and support the “Chester Literary Digest” know, the Educational Trust is alive and well! With the Trust’s funding, and Tracy Entrekin’s guidance, the Digest is giving the youngsters working on it a journalistic experience they would not otherwise have, and giving you an insight into the school that you have not enjoyed before. This elective will continue to receive Trust support!

The Trust is also sponsoring this year for the first time a day at the Browne Center of U.N.H. for the 8th graders. This is an “experiential learning program”, a confidence building experience similar in many ways to outward bound programs. The Trust felt that this would be invaluable for our students as they make the transition from our small school to the much larger and perhaps intimidating atmosphere of Pinkerton Academy.

We have more in the planning stage for next year. With your continuing help as well as that of our corporate sponsors (something we would like more of) for which the Trust is very thankful, we will be able to make good things happen for our young people. See you at the “Cow Plop”!

The Trustees,

Pat McLean	Janet Gregsak
Joanne Greer	Lorna Hazelton
Walt St Clair	

Report of Rockingham Community Action

Rockingham Community Action (RCA) is a private, non-profit corporation. Our mission is to serve the multitude of needs of Rockingham County's low-income residents by assisting them in coping with the hardships of poverty, giving them the tools to lift themselves out of poverty and seeking to eradicate the root causes of poverty. RCA has been addressing these needs for over thirty years.

Greater Salem Community Action Center is an outreach office of RCA that serves residents of Chester and 11 other communities, and as such acts as Chester's central resource for information regarding all available human services. RCA also offers intake, clinic and distribution sites in over half of the county's thirty-seven communities for the application and provision of various Community Action services.

Community Action provides a wide range of services that are unduplicated elsewhere in the county. Most of these services meet immediate, critical needs and all have a direct and positive impact on people's lives. The following services were provided by Community Action to eligible residents of Chester from July 1, 1995 through June 30, 1996:

22 households received one of a group of Fuel Assistance Programs, services that provide financial grants of up to \$585 to income eligible households to assist with energy-related expenses through the Fuel Assistance Program (some households also receive furnace cleaning and budget and energy counseling services), or grants of up to \$250 for fuel and utility emergencies for households not eligible for the Fuel Assistance Program through the Neighbor Helping Neighbor and the Senior Energy Assistance Service.

2 homes were weatherized through the Weatherization or Energy Management Services Programs, which provide high quality energy conservation materials and skilled labor to weatherize homes of income-eligible and high energy-using households in order to reduce heating costs and conserve energy, and provides major repairs or replacement of heating systems for low income homeowners.

1 household received help through the H.O.M.E. Program, which provides major rehabilitation of single family, owner occupied homes, emphasizing health and safety repairs, including water and septic systems, structural, roofing, electrical, and heating system work.

12 children and day care providers participated in the Family Day Care Program, which provides training and technical assistance to day care providers and sponsorship of the USDA Child and Adult Care Food Program.

12 child care referrals were arranged through the Child Care Resource and Referral Program, which compiles current data on all available child care options, provides child care referrals to employees of participating companies as well as to the general public, and expands the supply of quality child care by recruiting, training and assisting new child care providers.

4 individuals received services through Family Support Programs, which provide support services, transportation and protective child care to support and stabilize families at risk of child abuse through the Accompanied Transportation and Family Resource & Support Programs.

38 women, infants and children received help through the WIC or Commodity Supplemental Food Programs: WIC offers supplemental nutritious foods, nutrition education, breast-feeding support and health care screening/referrals to pregnant women, nursing mothers, infants and children up to the age of five; the Commodity Supplemental Food Program provides monthly allotments of commodity foods and nutrition education materials to senior citizens, postpartum women and 5 year old children.

10 children received books through the Family Literacy/Gift of Reading Program, which provides high quality books and other literacy services to low-income pre-school children and their families through the library-based Gift of Reading book distribution program and the home-based Family Literacy Project.

1 child was enrolled in Head Start, a comprehensive early childhood development program that provides education, health, nutrition and family support services to income eligible pre-school children and their families.

91 individuals received food through the Emergency Food Assistance Program, which distributes USDA surplus food to emergency food pantries, soup kitchens and shelters throughout Rockingham County.

1 food allotment was provided through the Emergency Food Pantry, which provides temporary emergency supplies of nonperishable food to households facing severe economic hardship.

Cordially,

Connie Young, Outreach Center Director
Greater Salem Community Action Center
Rockingham Community Action

Southeastern N.H. Hazardous Materials Mutual Aid District

(SO N.H. Hazmat)

The Southeastern New Hampshire Hazardous Materials Mutual Aid District is organized as a regional solution to the hazardous materials problem. The purpose of the district is to prepare our communities, regionally, for responses to hazardous materials incidents, both with training and equipment. The 15 communities that comprise the district are: Auburn, Atkinson, Chester, Danville, Derry, East Derry, Hampstead, Hooksett, Hudson, Litchfield, Londonderry, Pelham, Plaistow, Salem, and Windham.

The District is managed by an Operations Committee, consisting of a Chief Officer from each member community, who carry out the day-to-day business of the organization; and a Board of Directors, consisting of an elected or appointed member of municipal government in each community, who provide oversight and fiscal management.

District resources include two response trailers, equipped with generators, oil spill and decontamination equipment, and chemical reference material. The District also owns a response truck, equipped in the same manner as the trailers. Equipment upgrades to the Derry Fire Department Special Services Vehicle, and the Pelham Fire Department Rescue Truck, enable these vehicles to function as mobile command posts, complete with computerized reference software, as well as radio, fax and cellular communications. The District trailers and truck are strategically located to respond to any community requesting system.

Since the incident command system is mandated by law at a hazardous materials incident, the District has devised an on-call notification system whereby a member community may request Chief Officers from member communities to staff positions in the incident command system.

Six technician team leaders are now on-call to respond to member communities, to conduct research, advise the incident commander on control activities and safety, and fill incident command system staff positions. They also assist member communities with planning, since the District has been recognized as a regional Local Emergency Planning Committee, to comply with SARA Title III of the federal regulations governing hazardous materials. This allows the District to be eligible for Emergency Management Assistance funding.

Training of approximately 1,000 personnel to meet federal response standards has been completed, and the training focus is now on required annual training.

The District is currently considering organizing a Level "B" hazardous materials response team, the members of whom would be on-call to respond to any member community to assist with control activities at a hazardous materials incident.

The District has and will continue to move forward to meet our original goal; to provide the most cost effective manner of responding to a hazardous materials incident.

Respectfully Submitted,

For the Board of Directors
